

Pet Dog Manners Course

**Does your dog need to learn some manners?
We can help!**

We'll provide you with all the information and practical training you'll need to train your dog into a well-behaved canine citizen, and make sure you both have some fun at the same time. We'll give you an understanding of how dogs learn, and have your dog sitting (not jumping!), dropping, walking nicely on lead, coming when called, mat trained, paying attention (with distractions!) and lots more in no time at all!

How we Train

Our training methods are positive, fun for both you and your dog and reward-based..... and No, reward-based training doesn't mean that you're bribing your dog to do what you ask or that you'll need to use rewards forever, every time you train!

Reward-based training is simply motivational - no harsh methods are needed.

Our training is based on rewarding the desired behaviour and motivating your dog so that he will enjoy the training sessions. Training should never be frustrating or a chore - it should ALWAYS be fun for both you and your dog.

And remember – your dog will only ever know what you have taught him or her.
